

Site Name: ORBIS PRODUCTS CORPORATION

Alias(es): NU SOILS INC.

City: NEWARK

County or Parish: ESSEX

State: NJ

Refer to Report Dated: 08/31/2003

EPA ID: NJD010910099

Report Developed By: Weston Solutions

State ID:

Report Type: SITE INSPECTION #001

- ☒ 1. Further Remedial Site Assessment Under CERCLA (Superfund) is not required because: NFRAP-Site does not qualify for the NPL based on existing information

☐ 2. Further Assessment Needed Under CERLCA.

☐ 3. Remedial study/cleanup needed.

Decision/Rationale:

The U.S. Environmental Protection Agency (EPA) has determined that no further remedial action by the Federal Superfund program is warranted at the referenced site, at this time. The basis for the no further remedial action planned (NFRAP) determination is provided in the attached document. A NFRAP designation means that no additional remedial steps under the Federal Superfund program will be taken at the site unless new information warranting further Superfund consideration or conditions not previously known to EPA regarding the site are disclosed. In accordance with EPA's decision regarding the tracking of NFRAP sites, the referenced site may be removed from the CERCLIS database and placed in a separate archival database as a historical record if no further Superfund interest is warranted. Archived sites may be returned to the CERCLIS site inventory if new information necessitating further Superfund consideration is discovered.

The site was operated as a TSDF. The property was foreclosed by the City of Newark. Although, the site is contaminated, there are no targets. A redevelopment firm signed an MOA with the State on Sept. 2002 and has submitted a remediation workplan. As of 2003, the redevelopment plans are commercial purposes.

Decision/Rationale (Continued):
